

Irving Martínez Pacheco, Ph.D.

Cochabamba, Bolivia | irvingmartinezpa@gmail.com | [LinkedIn](#) | timesolutionslearning.net

PROFESSIONAL SUMMARY

Technology strategist, entrepreneur and implementation specialist with 25+ years driving innovation at the intersection of AI, public policy, and international development. Expert in translating emerging technologies into scalable solutions for governments, academic institutions, and international organizations across Latin America, USA, Europe, Africa and Asia. Proven track record building multi-stakeholder partnerships, navigating complex regulatory environments, and deploying technology frameworks. Currently contributing to AI ethics governance research while leading implementation of AI-enabled systems across 10+ countries.

CORE COMPETENCIES

Technology Implementation & Scale • Multi-Stakeholder Coordination • **Policy-to-Practice Translation** • Government & Development Partner Engagement • **Cross-Border Systems Deployment** • AI Governance & Ethics • **Rapid Prototyping & Iteration** • Global Program Management & Expertise

PROFESSIONAL EXPERIENCE

Founder & Principal Researcher | Time Solutions Learning | 2024–Present

Lead organization bridging AI innovation, policy frameworks, and practical implementation across education, sustainability, and economic development sectors.

- Architect and deploy technology solutions adopted by 10+ universities and NGOs, reaching 5,000+ learners across multiple countries with scalable, context-adaptable frameworks.
- Build and maintain partnerships with government entities, international development organizations and academic institutions to advance technology adoption for social impact.
- Design modular systems that function across diverse regulatory landscapes, connectivity constraints, and institutional capacities—from high-resource to resource-limited environments.
- Coordinate cross-institutional collaborations balancing technical requirements, policy compliance, and user needs across different cultural and operational contexts.

Key Initiatives & Impact

- **White House Office of Science & Technology Policy (OSTP) – U.S. AI Action Plan (2025):** Contributed national-scale framework proposing 100 AI innovation hubs with integrated credentialing systems, data-sharing protocols, and sector-specific implementation pathways. Projected to train 1M learners, certify 50K professionals, and generate \$10B GDP impact by 2031.
- **AI Sustainability Toolkit (2024–Present):** Led development of open-source framework integrating AI, sustainability metrics, and entrepreneurship support. Implemented across 10+ institutions in Latin America, USA, Europe, Africa, and Asia, demonstrating transferability across different technological and regulatory contexts.
- **AI for Africa Partnership (UK NGO):** Designed end-to-end digital delivery system for 1,000+ Net Zero entrepreneurs, including learning infrastructure, assessment frameworks, and certification mechanisms aligned with international sustainability standards.

- **UNESCO Greening Education Partnership:** Co-developed AI-enabled curriculum models impacting 10,000+ students globally, coordinating implementation across countries with diverse infrastructural and policy environments.
- **Let's Learn for Africa:** Led implementation of digital education systems across 5 African universities, adapting technical architecture to varying connectivity, language, and institutional capacity while maintaining interoperability.
- **International Science Council – LAC Regional Focal Point:** Facilitated research collaboration and knowledge-sharing platforms connecting 10+ Latin American and Caribbean countries, supporting 1,000+ participants through coordinated multi-national initiatives.

Current Research & Advisory Roles

- **White House Pledge to America's Youth (2025):** Organizational signatory leading institutional commitment to responsible AI governance and ethics education. Contributing AI Sustainability Toolkit as open-access resource training students, teachers, and parents in ethical AI use, reaching 2,000+ learners with commitment to scale to 10,000+ beneficiaries by 2029.
- **Center for AI and Digital Policy (CAIDP) – AI Policy Clinic (Spring 2026):** Contributing to applied research on AI governance frameworks, accountability mechanisms, and responsible technology deployment for public sector applications.
- **University of Oxford – AIEOU AI Hub:** External researcher contributing to global AI-for-sustainability frameworks and interdisciplinary research on scalable technology solutions.
- **IASTEM Goodwill Ambassador:** Facilitate international research collaboration bridging academic and industry ecosystems across four continents to advance technology innovation.

CEO | Taladega Maderas | Bolivia | 2010–2023

- Led sustainable manufacturing company implementing circular economy systems, achieving 25% waste reduction through data-driven operational frameworks.
- Applied systems thinking and sustainability metrics to strategic decision-making, demonstrating practical implementation of environmental and economic frameworks.

Senior Lead Tech | MNM Communications | United States | 2004–2009

- Managed technical infrastructure and service delivery for 50+ enterprise clients, ensuring system reliability, scalability, and integration across organizational contexts.
- Coordinated cross-functional teams maintaining service-level agreements in multi-stakeholder environments.

Professor & Curriculum Developer | Multiple Universities (Bolivia) | 1997–Present

- Designed and delivered 20+ technology-enhanced courses across 5 universities, integrating emerging technologies into traditional disciplines.
- 10,000+ students instructed while maintaining strong stakeholder relationships across academic, administrative, and industry partnerships.

EDUCATION

- **Ph.D. in Economics and Management** | Universidad del Valle, Bolivia (2022)
- **M.Sc. in Innovation and Entrepreneurship** | Universidad de Cádiz, Spain (2021)
- **M.Sc. in Marketing and Finance** | Universidad del Valle, Bolivia (2001)

- **B.A. in Business Administration** | Universidad del Valle, Bolivia (1997)

EXECUTIVE EDUCATION & CERTIFICATIONS

- Sustainable Investments in Agriculture | Columbia University (2025)
- Extractive Industries & Sustainable Development | Columbia University (2024)
- Cisco Certified Network Associate (CCNA) | Network Infrastructure & Systems (2004)
- Network Cabling Certification | Northern Virginia Community College (2002)

RECOGNITION & AWARDS

- Solsaga Global Impact Award | India (2025) – Ethical AI implementation and global learner empowerment
- Global Teaching Innovation Award | Academy of International Business (2025) – AI Sustainability Education
- National Research Excellence Awards | Bolivia (2023-2024-2025) – AI for inclusive entrepreneurship, AI integration in education, AI for Sustainable and Inclusive Entrepreneurship.
- Global All-Star Judge | Business Intelligence Group, USA (2024)

SELECTED PUBLICATIONS

- *Leveraging AI for Innovative Teaching* | AIB Insights (2026)
- *AI-Powered Sustainability Education* | Book Chapter (2025) – Referenced in multi-country higher education initiatives
- *AI-Driven Sustainability Education for Job Creation* | Growing Tomorrow Pro/Eduverse (2025)
- *Developing Sustainable Technology-Based Business Models with AI* | EIBA Conference Proceedings, Finland (2024)

PROFESSIONAL MEMBERSHIPS & LEADERSHIP

- Member-Candidate, CANIE Advisory Global Board (2026)
- Member-Candidate, Executive Board, Academy of International Business (2026)
- Editorial Board Member, Journal of the Academy of Business and Emerging Markets
- Member, Association for the Advancement of Artificial Intelligence (AAAI)
- **Judge:** Reimagine Education (QS Rankings), QS ImpACT, Business Intelligence Group, Sustainability & AI Excellence Awards (2023–2026)
- **Reviewer:** National Science Foundation IUSE Panel – Geoscience Education & AI/AR/VR Focus (2026), AIB Conferences, International Journal of Business and Economics Research, UNEP Global Environment Outlook (GEO-7) (2023-2026), ICAISE International Conference on Artificial Intelligence and Software Engineering-Technical Committee Member (2024-2026)
